

# BackUp Kit

Print this document and store it somewhere super safe

You should not share this document with anyone. Not your friends. Not anyone that calls you that claims to be tech support. Not even that awkward teenage kid who lives down the street who helps you with all your computer questions. No one should ever call or email you to ask for this document.

## Recover Your Bear

If you're reading this, it probably means you have forgotten your Master Password or lost all your devices. Sorry to hear that, it happens to everyone. The good news is this handy document has what you need to recover everything stored in your RememBear.

Start by downloading the app from [RememBear.com](http://RememBear.com). From the first app screen, choose "I already have a RememBear account" and follow the instructions.

New Device Key

**BEAR-J30WG-3EKMN-UCKAM-NIFBS-BMP83**

Email Address

**caiof\_bernardo@hotmail.com**

Your Master Password

*Write your Master Password above, we didn't print it for your security*

Point phone or tablet camera at this funny looking code when prompted by RememBear app
